DIRECTIONS

Johnstone Auction Mart is
located west of Moose Jaw on Highway #1

Semen Tests & Measurements

All bulls in the sale have passed a semen test and breeding soundness evaluation by a licensed veterinarian and have been issued a Semen Evaluation Certificate. Scrotal measurement & weight information will be available sale day.

Board and Pick Up Program

We will keep your bulls and look after them for you up to a maximum of 30 days at no cost to you. You will be responsible for picking up the bull(s) any time prior to, but no later than May 1, 2015. Insurance protection is mandatory for this option. After May 1, a feed charge of \$2.00/day will apply.

Insurance

Insurance will be available sale day.
Larry Toner: cell 306-834-7652. All bulls returning to Merit after sale MUST be insured to protect your investment.
INSURANCE IS MANDATORY!
Larry provides various packages to suit your needs.

Delivery

Free delivery will be provided up to 200 miles on purchases totalling \$3500.00 or more. Purchases less than \$3500.00 will be delivered at cost. We will deduct \$50.00 from the purchase price if you trailer them directly from the sale.

Gate Guarantee

If you are not able to attend our sale but are interested in our bulls, we can facilitate your order. Call to discuss your cow herd, your program and your specifications. We will select a bull that meets your requirements/specifications. The bull delivered to your gate is "satisfaction guaranteed" or we take him home - no hassle. You may also rely upon the sale representatives to bid and act on your behalf in a confidential manner.

**Standard Terms & Conditions
located at back of catalogue**

On behalf of Cockburn Red Angus we would like to welcome you to the annual Cockburn/Merit bull sale. We would also like to thank all of our buyers and bidders in the past sales, your support is greatly appreciated. The future of the beef industry has never looked brighter, we are experiencing all time high prices. With beef cattle numbers at a low, things are looking very positive for prices to remain strong for many years, selecting a high quality sire will be very important in moving your cow herd in the right direction and getting top dollar out of your calves.

Our bulls are developed with longevity in mind. They are fed to meet their potential to emphasize on muscle development, not to over fatten and jeopardize their longevity and fertility. The bulls will all be fertility tested and guaranteed breeders. We feel this group of bulls is one of our strongest yet, and consists of both easier calving bulls for heifers and higher performing bulls for cows. We spend countless hours and many miles sourcing some of the top genetics in the breed to ensure there is a bull to meet everyone's needs. Due to a limited number of simmental bulls this year we have decided to offer them for sale off the ranch rather than in this year's sale, but look for a strong group in next year's sale.

We make our living solely from our cattle. We have built our herd around strong cow families emphasizing on sound feet and legs, thick easy doing cattle with good udders, and herd sires with muscle, performance and doability as well as calving ease. Our purebred cows are ran on native grass along side our commercial cows with no special pampering or creep feed. We believe our cattle should work harder than we do and we cull strictly to ensure we stay on track.

We invite you to join us on March 30th at Johnstone Auction Mart in Moose Jaw, come presale for lunch, refreshments and to view the bulls. For any questions or to tour the bull pen or cow herd feel free to call. I look forward to visiting with you.

Break Out was the high selling bull in the 2012 SSS bull sale. We purchased him on the strength of his sire and maternal strength of his dam, who is one of the most impressive cows in the very deep SSS cow herd and he has not disappointed. His first sons were the highlights in last year's sale and will again be this year. We believe his real legacy will be through his daughters. They are phenomenal, soggy made, big ribbed, beautiful uddered females. Break Out's influence will be a huge part of our herd in the future.

Big League was a feature bull in the 2011 Ter-Ron Farms bull sale. We bought 106X because we were impressed with this maternal sisters in both Ter-Ron and U-2 herds. The Big League sons are easy fleshing and stout and his daughters are also big ribbed broody females with excellent udders.

Busted 404B is a bull we are very excited about. He puts it all together being big ribbed, thick topped and big hiped. He is sired by Breakout who's first sons topped our sale last year and his first daughters are now calving and look phnominal. Busted's dam 233T is a never miss cow with sons at Wildcat Creek in Kansas and Jason Breault's, as well as several daughters in our herd.

Breakaway 411B is an attractive dark red Breakout son who we think will be an excellent calving ease prospect yet not sacrifice growth and muscle. He very much resembles his sire Breakout as a yearling. Breakaway's dam 459W is on of our top Ribeye daughters and goes back to one of our cornerstone cows 28N.

INDEED 439B

Indeed 439B and 469B are a set of full flush brothers out of our Cora 443P cow and Indeed 104H. Indeed is known as one of the best female producers in the breed, combining that with the maternal strength of Cora these two will sire amazing females.

SOLID 426B

RED WILBAR CORA 443P - DAM OF LOT 14 AND 15.
 GRAND DAM TO LOTS 4, 13, 19, 23 AND 31.

Cora 443P is the cornerstone cow in our program and has left a huge impact in our herd. Cora has nearly 50 registered progeny in Canada and more in the US, including 16 daughters working in our herd. She is the dam of Red Cockburn Ribeye 308U, a bull who has left a huge impact in the red angus breed. She also has sons at South View Ranch, Barry Knox, Ron Wells, and Roger Lanoie to name a few.

RED COCKBURN RIBEYE 308U - MATERNAL BROTHER TO LOTS 14 AND 15
 GRAND SIRE TO LOTS 13,19, 23 AND 31

SHOWDOWN 2014

SHOWDOWN 2014

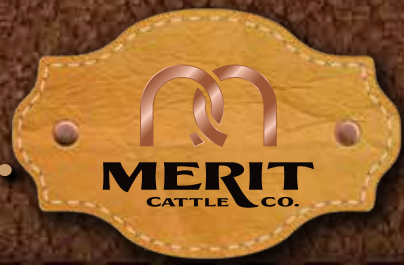

SHOWDOWN 2014

CANADIAN WESTERN Agribition 2014

MERIT CATTLE CO.

Firstly we want to take the time to say a HUGE and sincere thank you to all our customers, friends and family in this business that helped shape a successful and memorable 2014 for Merit. We are truly thankful for each and every one of you!

Congratulations to all of you that have finally been able to reap the financial benefits of this business by hanging on to the cows' tail, it was a long haul but she pulled us all through. The industry is more positive and exciting than ever and it's a great time to be involved in agriculture. That being said, we hopefully can retain and attract young people to carry on.

We love what we do (most days) and are constantly striving to improve our product. We have found in our 31 years in the Angus business the basics have to be sound and solid first before another direction is taken. We won't sacrifice what makes the Angus female great for the sake of numbers or trendy paper. "Good numbers" and "good paper" are relative to your needs and management. To quote Tom Blacklock, "Good cattle make good pedigrees, not the other way around."

There are loads of good Angus bulls in the country, so why come to Merit? The Merit focus has always been bull basics driven by our commercial customer base. Calving ease, good growth, high vigor, exceptional foot structure, great hair, good temperament, backed by sound and functional momma cows. 30 plus years of genetic predictability takes the guess work out of your purchase. Like our customers, we are the ones who provide the manual labour, so our tolerance for 'management' cattle is extremely low. It starts with cows that are designed with the capacity and hair coat to be efficient forage converters with feet and udders that will last into their teens without intervention, and sound maternal minds so they stay in the herd long enough to be profitable.

Merit bulls are managed for optimum growth and soundness. They are highly exercised and athletic as the field they are housed in from weaning to bull sale time is set up for maximum exercise with hay, pellets, water and bedding locations forcing the bulls to travel. The bulls are walking a minimum of 1.6 miles a day!

We feel this year's group of bulls is our strongest and deepest to date. There are bulls to fit everyone's needs and budget. There are calving ease bulls designed for your heifers and growth and power bulls designed for your cows, all backed by quality Merit maternal genetics so the heifers that you retain will be sound, productive and profitable. Please feel free to call, email or text. We are pleased to add Jim Nugent to our sales staff this year. Jim comes to the team with 23 years of bull buying experience for the PFRA. Our sales staff is highly competent and trust worthy so feel free to ask them about the offering as well.

77 was purchased by Right Cross Ranch and Ringstead Ranch in our 2011 bull sale. There were so many things 77 had to offer to suit our program that we just couldn't find anywhere else, that we used our herd right to semen on him. 77 is a soft made, deep bodied performance bull with a great foot. He displays true herdbull character and moves like a stud. 77 is in the top 10% of the breed for growth traits, above average for milk, and in the top 1% for scrotal. 77 sons exhibit performance and loads of hair that are essential in siring top selling steers in the fall. His Socialite dam has been a great producer for us. We felt that his greatest potential would lie in his daughters, and boy, are we right. They are beautiful females, with well balanced tidy udders with small teats. They are angular, moderate and soft sided. We are excited for the impact the 77's will be making in our program for years to come.

We had high expectations for Iron Will when we purchased him as the \$31,000 high seller at Bar E-L. Since then he has continued to impress us with his exceptionally consistent progeny. They are high performing, deep sided, hairy and sound... traits that we strive to produce for our bull customers. None of this comes as a surprise as his dam is one of the most powerful and consistent producers in the Longshore herd. The females from this line are impressive. Iron Will daughters are soft sided, massive ribbed, and fertile with beautiful udders. Iron Will sons were extremely popular with our customers in last year's sale. We felt so strongly about what Iron Will has to offer that we retained two sons in our herd, Big Dawg 3049 (last years high selling bull to Double F and Lock Farms at \$30,500 for 2/3 interest) and Klondike 3159. Calves from all three bulls are looking great. You'll be seeing a lot more of these 'yellow tag' bulls in the future.

Prowler was used exclusively as an AI sire on our heifers. We chose him for calving ease with respectable performance in an attractive package. His calves came easy with a short gestation and good vigor. His daughters are moderate, easy fleshing and good mothers. What we most admire about the Prowler progeny after using him for 3 years on heifers is his calving consistency and his ability to leave progeny that have muscle, depth and eye appeal with no throw aways.

Fortunate Son is a moderate framed, muscular sire whose progeny have risen to the top everywhere he has been used. His sons are loaded with muscle, length and performance while maintaining an acceptable frame score. While touring the McCumber bull pen and herd Trent was impressed with both his daughters and sons. His sons have dominated the McCumber bull sales.

Genesis was our high selling bull to Freyburn Angus in our 2012 sale. Merit retained an in herd use semen interest on him. Genesis is super masculine with strong Angus character and wide based with a powerful hip, while possessing large testicles, perfect feet and a gentle disposition. Genesis is in the top 7% of the breed for weaning, above breed average for milk and the top 1% for scrotal. Maternally backed by the Socialite cow family, his dam has now earned Elite Cow status. His sons compare favorably to those of his sire, Visa, with a little extra depth and hair.

Maverick combines predicable maternal and growth genetics in an eye appealing package. His sire 6323, "Viking", is a product of the Socialite family and was used successfully on heifers at Merit. Maverick is below average for birth weight with good growth, above average milk and top 1% for scrotal. His calves exhibit tremendous length and loads of vigor at birth. We share possession with the purebred herd of Gary Gervin in Manitoba. His dam Merit Countess 6087 is a proven top producer with 2 other sons working in purebred herds, Merit 8808 at Early Sunset Ranch and Merit Lucky Sevens at Bear Creek Angus. She has also earned Elite Cow status.

We consider Free Ride to be one of the very best breeding sons of the popular TC Freedom. We have long admired his progeny for their performance, soundness, and exceptional hair coats. His semen was exclusive, so when an opportunity arose to secure some at the Southland dispersal, we didn't hesitate. His progeny at Merit are exactly what we expected. They are long sided, loose made, and sound structured with great hair.

Herd sire material here! We love so many attributes this bull has, from his width of pin, muscle over his hip, and depth of body with upper rib shape, to his smooth shoulder. His structure is faultless with a great foot and athletic movement. He's super masculine with strength and character in his head that screams herd bull. The Hand Hill Colony of Hanna Ab, who originally purchased Prowler from Hamilton Farms, love their Prowler daughters for their fleshing ability and udder quality. 4023's 2 year old mother did a great job. She's a moderate Insight daughter with a perfect udder. His grand dam is as nice as you can make one and great grand dam is still sound and producing in the herd at age 11.

4031 is a definite sale feature, with a totally UNIQUE OUTCROSS PEDIGREE and exceptional PERFORMANCE and PHENOTYPE. There are so many good things about this bull that it's hard to start describing him. He has loads of character and masculinity with a smooth shoulder and strong forerib. He possesses exceptional depth of body with spring of rib that moves into a muscular hip that carries down to his stifle. He has a wide pin set and travels well on a sound foundation. Garrett showed him at side of his 4yr old mother at Young Ranchman's where they were Champion Angus female and Reserve Supreme Champion. They were also class winners at Agribition. His dam 48X is a producer. She is super sound, with loads of volume and an excellent udder. Every herdbull should have a mother this good. The Socialite cow family does it again!

4035 is a real stud that gets attention in the group. He's power and performance in a long bodied, soft made package. He's sound footed and athletic which is typical of the 77 sons. His dam is a beautiful Dutch daughter and his granddam is still producing in the herd at 13 years of age. The Socialite cow family is structurally sound and highly maternal with great udders and proven superior production, as their progeny always surface to the top.

The Iron Will / Dutch combination really clicked. He's a 3/4 brother to last year's high seller, 'Big Dawg'.

NEW FOR 2015...

As a result of bylaw changes within the Canadian Angus Association, Merit will be retaining a "NON revenue" sharing interest in every bull we sell. This allows Merit to collect semen on any Merit bull in the offering for in herd use only. This will be done at Merit's expense and the new owner's convenience. This is the same as in past sales but the change now means that 'Merit' will remain on the registration paper as an owner in order to satisfy association rules. This will apply to all bulls unless other terms are announced sale day.

4110 exhibits exceptional length and smoothness, with above average growth and milk. His dam is a perfect uddered, moderate Luke daughter. His granddam's progeny have consistently surfaced to the top. Merit Pride 3075, his maternal sister by Visa, was the high selling bred heifer at the Harvest Classic to Kody Traxxel for \$10,500.

MERIT PRIDE 3075 - MATERNAL SISTER TO LOT 139

MERIT CATTLE CO.

Merit Mommas... No frills, functional females with the utmost attention paid to structure,

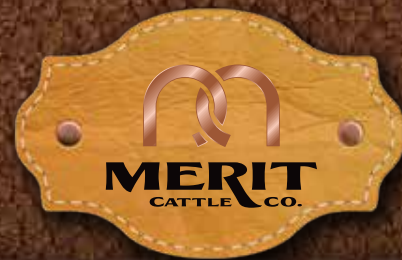

udders, disposition and do-ability. Our cows graze stockpiled grass as late as possible in the year, and when we are lucky and Mother Nature allows, even past Christmas. They are then fed hay bales with lick tubs on a half section until February. They are *not* supplemented with grain, fed silage or out swath grazing annual cereals.

Our females are taught to rustle for forage at an early age, with heifer calves being weaned on pasture and never confined to a 'pen' until it's time for them to calve.

They are not perfect, but we are trying our damndest to produce the best Merit Mommas possible. *The Angus cow is still the best mother cow in the world*, as long as we remember what got her there in the first place. It sure wasn't because of some numbers on a piece of paper.

 CALVING EASE: **

4141 has been our "pick" of the Genesis bulls all year. He has that true Angus character in his front end. He's strong topped and big hipped with an impressive 858lbs weaning weight for a March bull. 4141 is above breed average for all growth traits and milk. He is a maternal brother to Merit Klondike 3157, the power packed Iron Will son we retained in herd last year. It's no accident here that the Socialite family shows up on the top and bottom side of his paper work. The Forte daughters are doing a superb job and are like peas in a pod, they are moderate, tanky, and soft sided with good udders. His unique and predictable genetics make him a special breeding piece.

TERMS & CONDITIONS

Terms: The terms of the sale are cash or cheque payable at par at the sale unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released. The auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance to the sale with the owner or Sales Manager.

Bidding: Each animal is to be sold to the highest bidder. No by-bidding will be permitted. A reasonable price base may be set.

Disputes: In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters is final.

Purchaser's Risk: Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

Announcements: Errors discovered in the catalogue will be corrected by announcements from the auction stand at sale time and such corrections will take precedence over the printed matter in the catalogue. Buyers are cautioned to pay close attention to announcements.

Certificate of registry: Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyers for each animal after settlement has been made.

Breeders Guarantee, bulls: Should any bull (14) fourteen months of age or over, fail to prove a breeder after being used on cows known to be breeders, the matter shall be reported in writing to the seller within (6) six months following date of purchase or (6) six months after the bull has reached (14) fourteen months of age. The seller will then have the right and privilege of (6) six months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

In no event shall the seller be responsible for more than the purchase price. The seller is not responsible for damage caused by foreign bodies after the animal has been sold nor for sickness not apparent at sale time.

Exception guarantee: In cases where the animal was subjected to hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

Settlement: Transportation charges on

animals returned to the seller are for account of the purchaser. No incidental expenses such as feed, care, A.I., signing fees, interest, veterinary charges, etc., will be charged by either party when making settlement. If the seller is successful in proving the animal in question to be a breeder, the said animal will be reclaimed by the purchaser at his expense. Should the seller fail to prove the animal a breeder, then the buyer is guaranteed a satisfactory replacement F.O.B. ranch or location of origin or a refund of the actual price. Should a dispute arise over the quality of the replacement animal, the Sale Management will appoint a mediator.

Accidents: Although every precaution will be taken to protect the safety and comfort of buyers, neither the sales manager, auctioneer, or sellers assume any responsibility in this matter and disclaim any liability, legal or otherwise, in the event of accident or loss of property.

Mail or telephone bids: Bidders unable to attend the sale may phone or mail their bids and instructions to the sale manager, auctioneer, or special representatives. Bids must be received in sufficient time prior to the sale.

Rights and obligations: The above terms and conditions of the sale shall continue a contract between the buyer and the seller and be equally binding to both.

Resale of animals following purchase in this sale shall constitute a separate transaction which is not covered by the terms and conditions of this sale.
